Travel guidance during COVID-19

## We are committed to ensuring the safety and well-being of all our customers and employees at all times.

We have implemented a number of additional measures to ensure your safety throughout your journey with us. Please support our efforts to keep you and our employees safe by cooperating with instructions at all times. As these additional measures may increase the time it takes to board and disembark the Scillonian III, we ask for your patience at all times. These measures apply to both on the mainland and on the Isles of Scilly.

### FITNESS TO TRAVEL

You are reminded not to travel on our services and will be denied boarding if you:

- have experienced any symptoms associated with coronavirus in the last 14 days.
- Are self-isolating as a result of coronavirus symptoms.

- Are sharing a household with somebody who has experienced coronavirus symptoms in the last 14 days.
- Have been told to self-isolate as a result of having been in close contact with someone who has been confirmed to have coronavirus in the last 14 days.
- You have been told self isolate by NHS Test and Trace.
- Have arrived in the UK and are still within the 14 day self isolation period required by the UK Government. Exception - you have just arrived in the UK and are travelling to your home to self isolate.

You can check the list of countries with no self isolation requirement on the GOV.UK website. You will be asked to confirm that you do not fall into any of the above at check-in.

### FACE COVERINGS

The government announced that face coverings are mandatory when travelling on public transport unless you are exempt from wearing a face covering, in accordance with government guidelines. This requirement also applies to all of our transport services. You are required to wear face coverings on entering the quays and throughout the journey. Face coverings will not be provided. Customers must provide their own face coverings. Passengers without a face covering will be denied travel.

### SOCIAL DISTANCING

We are committed to upholding social distancing best practices, which includes doing all we can to allow for as much space between individuals as possible. Due to the nature of our operations, infrastructure and vessels we may encounter occasions whereby enabling maximum social distancing between passengers and employees is not always possible.

This may happen when the demand for travel increases following any future easing of lockdown measures. It is also impossible for us to control all individual passenger movements onboard the Scillonian III, due to the nature of ferry travel. However, please be assured that we will do all that we can to maintain appropriate social distancing and to keep you, our passengers, safe.

In order to facilitate social distancing we have implemented the following procedures into our operation. We ask that you work with us by following these measures when travelling with us.

### HAND HYGIENE

Regular hand washing and/or hand sanitising is an effective way to protect against contracting the coronavirus.

To assist in maintaining effective hand hygiene a number of hand sanitiser units will be available to use at points along the quays and onboard our the ship. You are actively encouraged to use these facilities to sanitise your hands.
